BRYONIA IS AN INDEPENDENT, SEASONALLY LED,
FLORAL DESIGN STUDIO

Established in 2019 and based in Edinburgh, Scotland,
Bryonia offers services throughout the UK and beyond.

Bryonia offers wild, playful & bespoke flowers for
weddings, events and special occasions. By using locally
grown and seasonal blooms, all of our flowers are closely
aligned with nature & seasonality.

We always use sustainable practices, and harbour a huge
passion for kind, naturally grown flowers, working
mindfully and reducing our footprint.

Bryonia's aim is to limit our impact by working with
likeminded suppliers and kind materials, as our main
ambition is to ensure that our florals are caring for the
world that first gave them life.

YOUR WEDDING JOURNEY

Enquiry

Once you've read through our guide, simply complete the enquiry form on our website to start your journey, and don't worry if you're not sure on everything just yet. We usually recommend you do this around 12 months before your wedding day, as we can book out in popular months quickly.

Consultation

If we are available on your date, then we will be in touch to organise a video call with you, enabling us to personally discuss your ideas, our ethos, approach and recommendations for seasonal flowers.

Proposal

After we have our consultation call, we create a bespoke proposal for your wedding flowers with a suggested deposit payment. All quotes are fully customisable and can be edited if required. Paying the deposit confirms your wedding date in our diary.

Preparation

From now until your wedding, we will be on hand to discuss your wedding flowers, and can chat through anything you need or make adjustments.

Final Checks

Six weeks before your wedding day, we will finalise the exact arrangements, and once confirmed, we will send across the remaining balance summary.

Wedding Day

A flurry of activity as everything comes together and we will start early to turn your floral visions to life. As part of our delivery/setup schedule, Jenna will always be on site and will deliver any personal flowers, so we have the chance to wish you a happy day ahead.

O U R F L O W E R S

Seasonality and nature are at the heart of all our arrangements, so instead of promising any specific flowers for your day, we will cherry pick the best from our network of local growers and flower farms.

We spend multiple days of the year on flower farms, and have worked closely with a few of them, so we're clued up as to what's possible when working seasonally, and what's likely to be growing for the month of your wedding.

We love to work in a style which champions colour, playful shapes and wild abundance, whilst ensuring the environment is also considered.

You can find out more about the specific flowers likely to be available for your wedding during our complimentary consultation, but until then, we've created a sample of our work below through some seasonal mood boards, ready for you to feel inspired.

When can we book?

Our wedding diary aligns with the natural flowering season, from early Spring to late Autumn. We typically open up for bookings one year in advance.

Do you travel?

Yes, we love to travel with our work, and have previously created flowers for weddings across North West England, South West England, Scotland, Germany, New Zealand, Australia & beyond.

Can we request specific flowers?

We don't have control over what will be available on the date of your wedding, as this is left in Mother Nature's hands and seasons are changeable here in the UK, meaning we are unable to confirm specific varieties. However, we can advise on likely flowers based on previous years, as per your seasonal mood board.

Will you provide designs?

Our style of working is always led by nature, so instead we'll look to provide you with a mood board of flowers, themes & colour palettes, rather than set designs in advance. This allows us creative freedom to pick the very best flowers for your wedding, rather than sticking to a limited or set 'recipe'.

Where do you get your flowers from?

A mixture of local growers, gardens and our own growing when time allows. We source all of our flowers very carefully, with sustainability in mind.

What do you do with leftover flowers and waste?

We always compost as many of our flowers as possible. We also reuse much of our vessels, mechanics and structures. If you would like to keep any of our flowers to distribute amongst your wedding party or otherwise, please let us know.

Can we change/edit my proposal?

Please get in touch to discuss your proposal if you would like to make any changes, all our quotations are fully bespoke and customisable.

Will you create all our flowers?

Bryonia will work closely with an experienced team to create your flowers, and all arrangements will be led & designed by Jenna.
